An Index

to

E. A. Bryan's

HISTORICAL SKETCH OF THE

STATE COLLEGE OF WASHINGTON

1890 - 1925

Compiled by

Burt Harrison
This index to Enoch Albert Bryan's Historical Sketch of the State College of Washington was compiled less as a labor of love than as a reaction to nearly three decades of annoyance. Anyone who has had occasion to make use of this indispensable but frustrating volume knows precisely what I mean. I sweated with Bryan's book frequently during the long period I was a member of the WSU faculty and the staff of KWSU since I frequently was drafted to work on historical and publicity material for the institution. Bryan was the only easily available source of information about WSU's early years. Somewhere along the line I resolved that--if I ever got the time--I would index Bryan's tome because, apparently, nobody else has ever made that effort. I started the index almost immediately after I retired from WSU and have struggled with it intermittently for the past seven years. I present it to the institution now in the hope that it will be useful to scholars and wordsmiths who are working on material connected with the coming WSU Centennial Celebration.

Burt Harrison
