ON-FARM TEST RECORD FORM

This form will help you keep a permanent record of one on-farm test. Use it as a place to record the field history, treatments applied, data, and observations. Attach any additional maps, data, product labels, or analyses.

DATA AND CALCULATIONS
This Fact Sheet was produced as part of the STEEP II On-Farm Testing Project by Stewart Wuest, project coordinator, Washington State University and University of Idaho; Baird Miller, Extension Agronomist, Washington State University; Roger Veseth, Extension Conservation Tillage Specialist, Washington State University and University of Idaho; Stephen Guy, Crop Management Specialist, University of Idaho; Don Wysocki, Extension Soil Scientist, Oregon State University; and Russ Karow, Extension Agronomist, Oregon State University. Pacific Northwest Cooperative Extension Publications are jointly produced by the three Pacific Northwest states—Washington, Oregon, and Idaho. Similar crops, climate, and topography create a natural geographic unit that crosses state lines. Since 1949, the PNW program has published more than 450 titles. Joint writing, editing, and production have prevented duplication of effort, broadened the availability of faculty specialists, and substantially reduced costs for the participating states. Pacific Northwest Extension Publications contain material written and produced for public distribution. You may reprint written material, provided you do not use it to endorse a commercial product. Please reference by title and credit Pacific Northwest Extension Publications. To reproduce material used with permission in this publication, please contact the original source. The three participating Extension Services offer educational programs, activities, and materials—without regard to race, color, national origin, sex, age, or disability—as required by the Title VI of the Civil Rights Act of 1964, Title IX of the Educational Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973. Washington State University Cooperative Extension, the University of Idaho Cooperative Extension System, and the Oregon State University Extension Service are Equal Opportunity Employers. Issued by Washington State University Cooperative Extension, Harry B. Burchlow, interim director; Oregon State University Extension Service, Lyla Hougum, interim director; University of Idaho Cooperative Extension System, LeRoy D. Luft, director; and the U.S. Department of Agriculture in furtherance of the Acts of May 8 and June 30, 1914. Cooperative Extension programs and policies comply with federal and state laws and regulations on nondiscrimination regarding race, color, gender, national origin, religion, age, disability, and sexual orientation. Trade names have been used to simplify information; no endorsement is intended. Published February 1995. $.50/$.50/$.50
