A stylized graphic of a sun with rays and a cloud. The sun is a semi-circle with rays extending upwards. Below it is a large, flowing cloud shape. The entire graphic is rendered in a dark brown color on a light yellow background.

You— and Tomorrow

Extension Service
Institute of Agricultural Sciences
THE STATE COLLEGE OF WASHINGTON
Pullman, Washington

You and Your Family . .

The happiest place on earth! That's what **home** can mean to your family — to any family that plans, works, plays together.

Wives and mothers—some 3½ million of them throughout rural America, many of them in this State—believe that good homemakers, like heroes, are made, not born. They study the art and science of happy family living. Their interests are broad, extending to anything and everything that has to do with the family's health and welfare—from stretching the family dollar to the proper food for young Bobby's teething time. They learn first aid for home accidents, how to cut corners on housework, to make and make over clothes, plan family fun, put something away for a rainy day.

Your home demonstration agent can help you with practical information and with the latest printed material from The State College of Washington and the U. S. Department of Agriculture.

You and Your Community . .

Are people in a **hurry** to move into — or out of — your community? That's strictly up to you and your neighbors!

It's not wishing that counts, it's willingness to work for what you want. In hundreds of communities in Washington, thousands elsewhere in the Nation, local groups are right on the job when it comes to making their neighborhoods a better place to live in. And they've got plenty to show for their efforts—community centers, well-equipped playgrounds, lending libraries, hot school lunches, dental and medical clinics, hospital and other health insurance programs. Roads, schools, electric power, and telephone lines also claim their attention. But there are still too many communities without such groups. Maybe **yours** is one.

You and Your World . . .

Millions of friendships crossing national lines, a sense of kinship among all peoples. This **can** be the gift of the Atomic Age!

From Kalamazoo to Timbuktu, people are the same, way down deep. Words differ, and ways of living, even styles vary—country by country. But these are things that add charm to friendships. Discussion leading to an understanding of world problems and the study of culture and customs around the globe are but two of the ties that can bind the world together. The radio, the airplane, and atomic power offer the means of making the world one friendly community. Many women are preparing to make the most of these avenues to lasting peace.

YOU can join with them. Call or visit your county home demonstration agent. (See address on back panel.)

You . . .

Take a look at the future! What are the prospects for a better tomorrow for you and your family?

Or — take a leaf out of the calendar, say 5 or 10 years from now. Of course you've got a hatful of dreams about the things you want for your family—and yes—even for yourself: A model home that's a pleasure to keep, a college education for Jane, Jim, and little Bobby, a nest egg for old age.

Daydreams, maybe, but you can help make them real, every day that passes! Yours for the taking is the know-how to run a home smoothly, protect your family's health, trim living costs, and train your children to face the future.

See your county home demonstration agent if you want to learn the Extension way.

Your COUNTY HOME DEMONSTRATION AGENTS

- Adams — Mary W. Wills, Ritzville
Benton — Loretta V. Cowden, Kennewick
Chelan — Irene Piedalue, Wenatchee
Clallam — Ruby Knudson, Port Angeles
Clark — Mae Stephenson, Heloise Harbeinson, Vancouver
Columbia — Mrs. Laurel Pendleton, Dayton
Cowlitz — Virginia Houtchens, Kelso
Douglas — Mary Ann Faletto, Waterville
Grant — Jessie P. Burch, Ephrata
